EXPERIENCE

Paytm Payments Bank

Software Engineer • Noida, NCR

JUL '25 - PRESENT

- Architected and deployed **custom MCP servers on-prem** for Jira, Confluence, and file servers using OAuth and PAT-based auth, routed through a proxy to eliminate external network exposure via Anthropic's servers.
- Built a **RAG pipeline in Python + ChromaDB** to ingest and query heterogeneous documents (circulars, notices, Excel, Word), serving 6 cross-functional teams across Tech, Compliance, Finance, and Business.
- Developed a **Text-to-Query AI Agent** using LangGraph and a self-hosted open-source LLM, enabling secure natural language querying over structured business data.
- Led the AI team in defining org-wide **AI access controls and usage guidelines**, collaborating with leadership to roll out an AI-first banking strategy across the organization.

White Rabbit Group
